

# TREFADDER

**Welcome to Trefadder**

Norway's largest producer of biological carbon credits

Our mission:

**To create premium carbon and nature credits for real, measurable environmental impact.**

## TREFADDER IN A NUTSHELL

- Established in 2019
- 12 employees
- 250.000 tons of CO<sub>2</sub> capture
- 30M NOK in turnover in 2025
- Offices in Norway and Danmark

## Leadership Team

**ANDERS** Kristiansen  
CEO

**ØYVIND** Stråbø  
CFO

**JØRN** Wilhelmsen  
COO

**JAN THOMAS** Rantaniitty  
CMO

## Board of Directors

**BJØRN** Haugland  
Chairman of the Board

**JENS** Naas-Bibow  
Member of the Board

**ANDERS** Kristiansen  
Member of the Board

## Production Team

**JON ENDRE**  
Valand Bjørnbet  
Head of certification

**SANDER H** Alfredsen  
Head of production

**ANDERS** Melbø Valvik  
Forestry expert

**MICHAEL** Fülberth  
Forestry expert

## Our team in Denmark

**MIE** Levi Fenger  
CEO

**JENS CHRISTIAN** Mølbjerg  
COO

## Operation Team

**MAGNUS** Farkvam  
Administration

**TORMOD WILSON**  
Losendal  
On leave as the Mayor of Stavanger

**LINN** Contreras  
Administration

## High-quality credits

### CARBON CREDITS

To finance measures that remove and store CO<sub>2</sub> from the atmosphere.

*One carbon credit corresponds to one tonne of CO<sub>2</sub> that is either avoided or removed.*

### BIODIVERSITY CREDITS

To finance measures that increase natural diversity.

*One biodiversity credit is a measurable and quantifiable measure in nature.*

## Example of Trefadder's quality requirements

Solid documentation

Recognized methodology

According to Standard

Measurability

Trigger factor (Additionality)

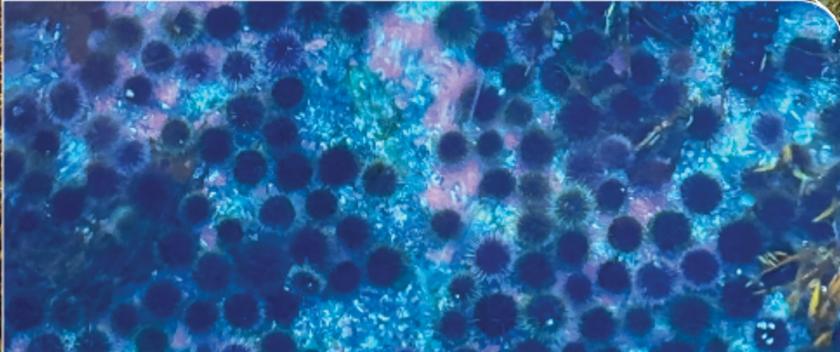

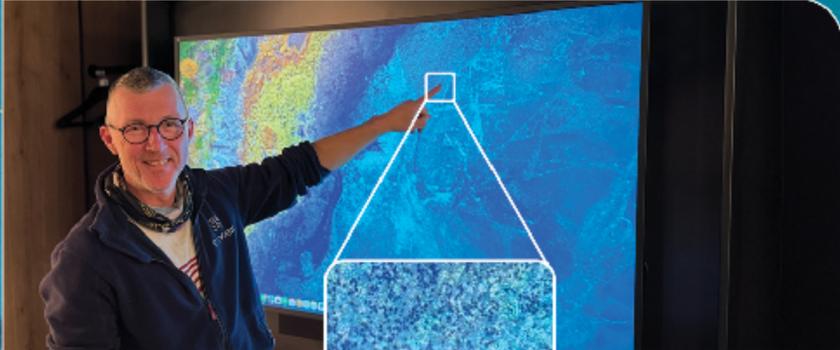

Third-party verification

Traceability

International credit register

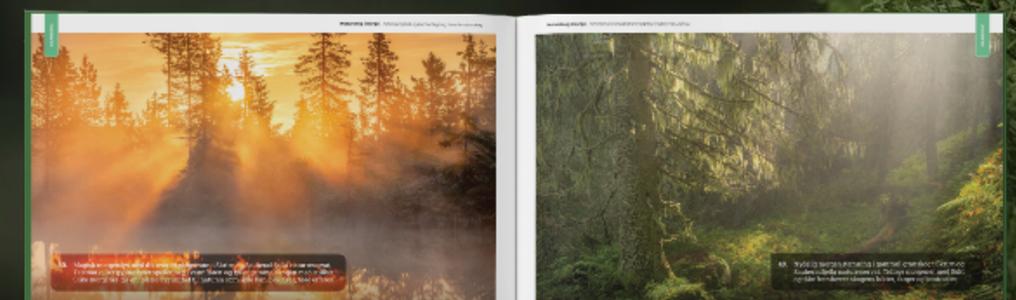

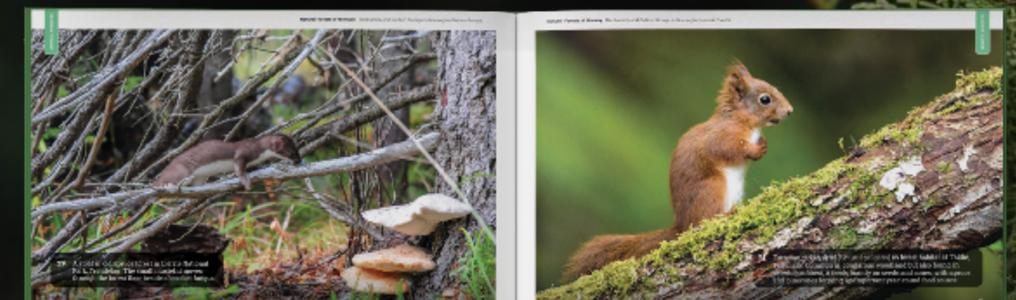

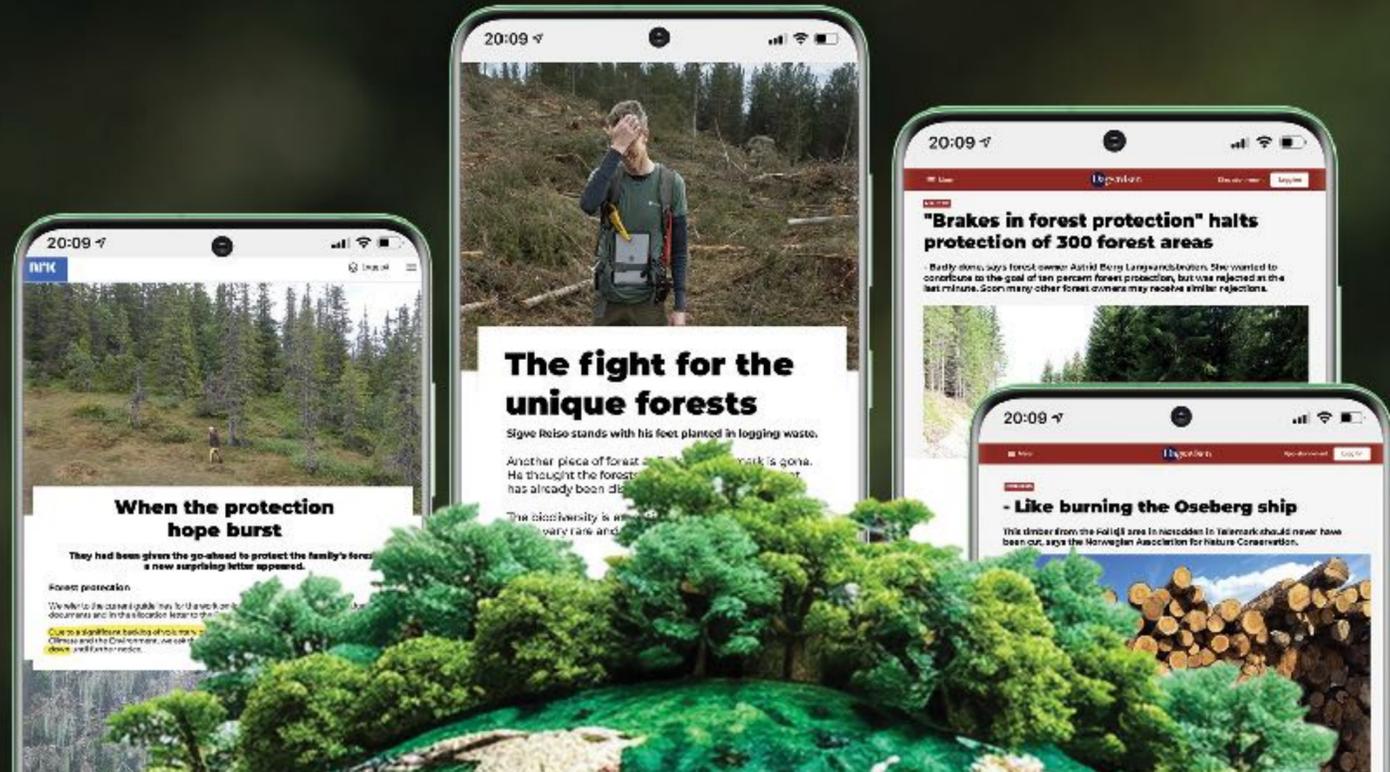

# Pilot project - Kelp forest restoration

Norway's leading player in biological carbon capture and nature measures.

# Pilot project - Natural forest protection

Norway's leading player in biological carbon capture and nature measures.

## Trefadder takes responsibility for old-growth forest

### Protection criteria:

- High conservation value classification
- Rejection/Not applicable for the state to protect
- In danger of being cut down

# Nature credits in practice - Example 1

Norway's leading player in biological carbon capture and nature measures.

## CARBON CREDITS

Climate compensation for CO<sub>2</sub> emissions from construction machinery.

## BIODIVERSITY CREDITS

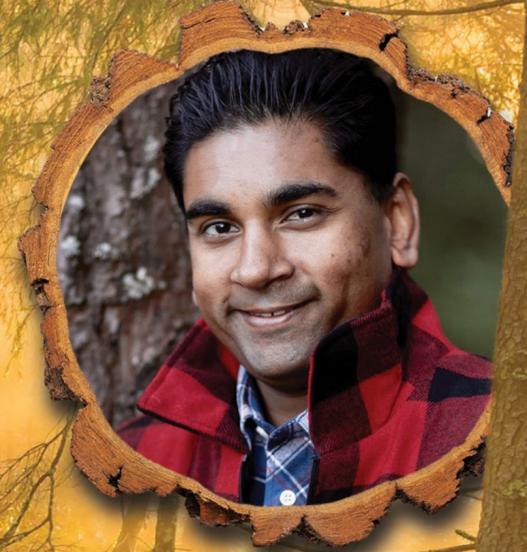

Nature compensation for interventions in nature through, for example, new planting, forest protection, and habitat projects nearby.

# TREFADDER

Premium carbon capture and biodiversity
