

Kari-Ann Omlie Birkeland,
Standard Norge

Hvordan kan du delta i høringen?

Offentlig høring for standarder

Standard Norges høringsportal Enquiry

- Det er tre mulige måter å få tilgang til et dokument som er på høring:

1. Logge inn via www.kommentere.standard.no
2. Gå inn via SN's nettside www.standard.no og bruke lenken «Standarder på høring» som vises nederst på siden
3. Du kan motta en lenke (fra en venn, fra våre systemer osv.)

Hvilke standarder som til enhver tid er på høring listes også på www.standard.no under overskriften «*På høring nå*». Her ligger lenker til standarder som er på høring.

Log in

- Returnerende brukere logger inn
- Første gangs brukere må registrere seg
 - Gå ned til "Ny bruker" og trykk "Registrer". Her velger du om du er firmakunde, privatkunde eller student.
 - Får du feilmelding om at e-posten allerede er i bruk, trykk glemt passord.

The screenshot shows a web interface for logging in and registering. It is divided into three main sections:

- Logg inn:** This section is highlighted with a red box. It contains an "E-post" input field, a "Passord" input field with a visibility toggle (eye icon), and a "Husk meg" checkbox. Below these fields is a message: "Vi benytter informasjonskapsler på denne enheten for å holde deg pålogget. Du kan endre dette ved å logge av, eller slette informasjonskapselen." At the bottom of this section are two buttons: "Logg inn" and "Glemt passord".
- Single Sign-On:** This section is not highlighted. It contains two buttons: "Intern SN" and "Microsoft Office 365".
- Ny bruker:** This section is highlighted with a red box. It contains two buttons: "Registrer" and "Send aktiveringslenke på nytt".

Hvordan får du tilgang til høringsutkastet?

- Søk opp en relevant standard
- Åpne høringen
 - Klikk “Les og kommenter” (eller “View and comment”)
- Skriv alltid kommentarer på det språket dokumentet er skrevet på (norsk eller engelsk).

The screenshot shows a search interface with the title "Search" at the top. Below the title is a search input field containing the text "S-003". Below the search bar, it says "Showing 7 out of 7" with navigation arrows. The first search result is highlighted in a white box with a light blue border. The result title is "prNORSOK S-003:2026" with an information icon to its right. Below the title is the category "Environment" and the text "Closes 2026-04-21". The main body of the result contains a paragraph of text: "This document gives provisions for systematic management of environmental aspects, and risks related to the environment in design, modification and decommissioning of offshore facilities for production of petroleum, including associated subsea installations and tie-ins, pipelines and drilling rigs. Provisions from applicable governing documents, in the form of acts, regulations, standards, recognised practices, are not repeated in this document. More stringent provisions than those of this document can apply to certain license areas." Below this text is the ICS code: "ICS code: 75.180.01 Equipment for petroleum and natural gas industries in general". At the bottom right of the result box are two buttons: "View and comment" (highlighted with a red border) and "More information".

Slik kommenterer du

- Marker setningen du vil kommentere på
 - Det får en annen bakgrunnsfarge og kommentarfeltet kommer til syne.
- Velg **type** kommentar: generell, teknisk eller redaksjonell
- Skriv kommentaren 🌟

5.3 Environmental budget

An environmental budget to gather data on environmental performance, including chemicals, raw materials and natural resource consumption, emissions, discharges and waste generation, shall be established and updated in each project phase.

The environmental budget shall quantify expected consumption, emissions and discharges, include consumption of raw materials, natural resources and waste generation.

The environmental budgets shall cover the entire project and installation lifespan and impacted value chain, and take into account foreseeable changes.

Offshore Norge guideline 044 [6] may be applied for methods and factors for quantifying some of the environmental aspects.

Description

Committee

- Etter at du har valgt et dokument
- Velg brukeren din oppe til høyre, deretter Administrer team/
Manage teams
 - Gir deg mulighet til å opprette lag for samhandling internt

Samarbeide med kolleger – lag et lukket team / lag

- Gi laget et navn og inviter inn kolleger som medlem via epost
 - I eksempelet: *Test team*
- Tildel rolle enten som medlem eller admin
- Trykk «Send Invite»

The screenshot shows the 'Manage teams' interface. At the top, there is a header 'Manage teams' and a navigation bar with 'Team Test team' (where 'Test team' is highlighted with a red box) and a '+ New team' button. Below this, the 'Test team' details are shown, including the description 'Tester funksjonen' and buttons for 'Edit team' and 'Delete'. The 'Invite to team' section contains a form with fields for 'Invite email' and 'Role', and a 'Send invite' button. On the right, the 'Members' section shows '2 members total' and a table with two members: Kari-Ann Victoria Omli Birkeland (Owner) and Kari-Ann Birkeland2 (Member).

Members	Role
Kari-Ann Victoria Omli Birkeland kbi@standard.no	Owner
Kari-Ann Birkeland2	Member ▾

Kommentere i et lukket team / lag

- For å se hverandres kommentarer i et team:
 - Les og kommenter **som team medlem**
 - Ingen andre enn laget kan se kommentarene så lenge høringen er åpen
- Kommentarene som ligger i portalen når høringsfristen er passert sendes inn til komitéen for behandling

The screenshot shows a web interface for commenting on a selection. It is divided into two main panels: 'Kommenter utvalget' (Comment on selection) and 'Comment on selection'.

Kommenter utvalget

- Utvalg: L> Foreword
NORSOK is an acronym for the competitive the Norwegian continental shelf and comp.
- Kommentere som: Personlig kommentar (highlighted in yellow)
- Kommentartype: Generell (selected), Teknisk, Rec
- * Kommentar: [Empty text area]
- Footnote: Kommentarer kan bare opprettes eller endres mens høringen er åpen

Comment on selection

- Selection: L> 6.2 Energy solutions
The energy solutions shall be BAT assessed and documented.
- Comment as: Test team (highlighted in yellow)
- Comment type: General (selected), Technical, Editorial
- * Comment: [Empty text area]
- * Proposed change: Proposed change to the text (highlighted in red)
- Attachments: Attach file...
- Buttons: Cancel, Post

God praksis for kommentering

- Vær så konkret som mulig
- Begrunn gjerne
- Gi et konkret forslag til endring av markert tekst
- Formuler deg presist slik at komitéen kan vurdere kommentaren korrekt
- Lag heller flere enkelt-kommentarer enn én stor som strekker seg over flere avsnitt/underkapitler/kulepunkter
- Kommenter på samme språk som høringsutkastet foreligger på
- For eForms: kommenter på innholdet i den vanlige høringen for standarden, men feil kan kommenteres i eForm-høringen (oppgi avsnitt/bestemmelse kommentaren gjelder)

Enquiry information - eForm

- An eForm version of the provisions in this document is subject to public review at the same time as this document – as pdf-documents linked from the enquiry.
 - The eForm gives the company an opportunity to select among the provisions in NORSOK S-006 to be valid for a specific contract.
 - A separate pre-defined eForm is given for provisions that can be included for low-risk contracts according to Annex B of prNORSOK S-006:2026.
 - The eForms have to be used together with the standard itself.
- The provisions are organized in numbered paragraphs to ease reference
 - Necessary to be able to identify provisions for low-risk contract (Annex B)
- Once published, the eForms will be available in Standard Norway's webshop as an optional service in addition to the standard for companies placing contracts.

Example of the eForm for low-risk contracts

B.10 Provisions from Clause 14 Safety relevant for contracts with limited HSEQ risk

The provisions of the following paragraphs or subclauses from [Clause 14](#) Safety should apply to contracts with limited HSEQ risk:

- paragraphs [14.1.1](#) and [14.1.2](#) from subclause [14.1](#) General
- paragraph [14.7.1](#) from subclause [14.7](#) Personal protective equipment

14 Safety

14.1 General

14.1.1

- The contractor shall ensure safe operations by use of adequate resources and management systems.

14.1.2

- The contractor shall ensure that all personnel, including subcontractors and their contractor, are trained and empowered to intervene and report unsafe acts and conditions, and are authorised and obliged to exercise “stop-work” authority when necessary.

14.7 Personal protective equipment

14.7.1

- The contractor shall based on risk assessment identify and implement requirements for use of personal protective equipment (PPE).
