

Do you want a course in N-005?

Should EG-N arrange class-room training in N-005?

NORSOK N-standards

- N-001 Integrity of offshore structures: 2020
- N-003 Action and action effects: 2017
- N-004 Design of offshore structures: 2022
- N-005 Integrity management of structures and marine systems: 2026

New revision of N-003 started April 2026

Important revision topics:

- **Clarify requirements vs guidance** — move more of the guidance text and method description to the annex
- **Harmonize N-003** with the updates in N-001, N-004 og N-005 and relevant ISO standards (e.g. ISO 19901-1) and DNV (bl.a. DNV-RP-C205)
- **Wave-in-deck loads and new statistical methods**: update requirements according to new knowledge and industry practice
- Consider need for updates in requirements for e.g. **environmental condition monitoring, slamming, directional statistics** and **vessel impact**
- **Update** referanses and maps

Broad participation from the industry: Equinor, AkerBP, Aker Solutions, Multiconsult, DNV, Dr. techn. Olav Olsen, Sintef Ocean, UiS, Met Norway og Havtil

Planned consultation draft in **June 2027**
